Before You Do Any Digging, Remember To Do Some Dialing

Planning to tackle a big landscaping project soon? Southeast Nebraska Telephone Company reminds you to pick up your phone before you pick up your shovel. Call Digger's Hotline at 811 or 1-800-331-5666 at least 48 hours in advance to have all utility lines properly identified and clearly marked. It not only saves you time and protects you from potentially costly damage; it's required by Nebraska law.

Many utility services such as phone, cable television, sewer, gas, water, and electricity come to your home via underground lines. By calling 811 or 1-800-331-5666, you can proceed with your landscaping knowing that you won't disrupt any utilities or compromise safety. Plus, this line identification is absolutely free.

As one of your local service providers, Southeast Nebraska Telephone Company thanks you in advance for your cooperation. It's important that we all know exactly what's underground before we start digging. 245-3394 That way, we can make our properties more beautiful without making a mess out of utility lines.
